

## **BACKGROUNDER**

In the Summer of 2024, the Newfoundland and Labrador Teachers' Association submitted Access to Information (ATIPP) requests to NLSchools, the Conseil Scolaire Francophone Provincial, the Royal Newfoundland and Labrador Constabulary and the Royal Canadian Mounted Police.

The ATIPP requests were for the total number of incidents of:

- physical violence or aggression by students and/or visitors to school(s);
- threats of physical violence or aggression by students and/or visitors to school(s); and,
- threats to the safety/security of students, staff and/or school property (for example, bomb or weapon scares)

which occurred in Newfoundland and Labrador K-12 public schools for the 2023-24 school year. The Association previously received the same information for the 2018-19 to 2022-23 school years.

## **KEY TAKEAWAYS:**

- Substantial decrease during pandemic: There was a significant decline in the number of reported violence cases during the 2019-2020 and 2020-2021 school years, which can be attributed to the reduced number of in-person school days due to COVID-19 closures.
- Trend of increasing cases post-pandemic: Following a low in the 2019–2020 school year, there has been a year-over-year increase in reported violence cases, with a 19% increase from 2021–2022 to 2022–2023, and an increase of 26% total cases (and 29% for cases of physical violence) in 2023–2024 compared to the 2022-2023 school year.
- **Potential exceedance of pre-pandemic levels:** The total number of cases surpassed pre-pandemic levels by 11% in the 2023-2024 school year.
- Rise in daily incident average: Analysis excluding the years impacted by COVID-19 closures reveals an increase in the average number of reported violence incidents per day, from 20 per day in 2018–19 to 22 per day in 2023-2024.
- Emerging post-pandemic trend: The higher average number of cases per day in 2023–2024 suggests a trend towards a generally higher incidence rate of violence per student, coinciding with normalization of school attendance rates.

The following table shows the total number of incidents reported across NLSchools schools, along with the behaviour categorization provided, and the consolidated categories associated with each used to combine data from multiple sources.

PROVIDED CATEGORIES	CONSOLIDATED CATEGORIES	2018–2019	2019–2020*	2020–2021*	2021–2022	2022–2023	2023-2024

<sup>\*</sup> Schools were closed during 2019-20 (March-June) 2020-21 (December-January) due to COVID-19.

There was some inconsistency between the format of data provided by the former NLESD for school years 2022-23 and earlier, and data provided by the Department of Education for NLSchools for 2023-24. To avoid inadvertently inflating incident counts, the following new categories have been excluded:

<sup>\*\*</sup> Reported only for Sept-Oct 2023 for the 2023-24 school year.

The following table shows the total number of incidents reported by the Royal Newfoundland Constabulary (RNC) in schools, along with the behaviour categorization provided, and the consolidated categories associated with each used to combine data from multiple sources.
